

Curriculum Vitae

Personal Data

Name: Sherifa Hamed Ahmed Mahmoud

Place of Birth: Domiate – Egypt

Nationality: Egyptian

Sex: Female

E.mail : sherifa612@yahoo.com

The present Job: lecturer in zoology Department, Faculty of Science,
Suez Canal University

Academic degrees:-

-BSc (zoology) May, 1994

-M.Sc. (Zoology – physiology) November, 1999.

Title of the master thesis:

" Toxicological Studies on the Effects of Cadmium on Experimental Animals "

- Ph.D. (Zoology- physiology) December, 2007.

Title of the PhD. Thesis :

" A study on the therapeutic effect of *Calotropis procera* on the heart pathophysiology"

-Practical and teaching experience: Teaching associate in the labs (electrophysiology-biochemistry–histology– chordata – Invertebrates)

special courses (pathophysiology – applied physiology- cell biology – Free radicals – endocrinology).

Skills:-

- Proficient in English language (TOFEL, score 220=567)

- International Computer Driving Licence (ICDL).

- Practical training for one year in Italy (Trieste University) on Patch clamp technique and Ca video imaging in Physiology Department, and column chromatography in Faculty of Pharmacia- Trieste University, Italy.

Activities:-

- Member in the Egyptian British Biological Society.
- Member in the Egyptian Society of Natural Toxins.

-حضور دورات تطوير التعليم

(معايير الجودة- الساعات المعتمدة- ادارة الوقت والاجتماعات- اخلاقيات البحث العلمى- مهارات التدريس)

Conference attendance:

- First International conference of the Egyptian British Biological Society (biodiversity and conservation of natural heritage). Suez Canal University, Ismailia, July29-30, 2001.

- 12th International conference of the Egyptian-German Society of Zoology. Faculty of Science- Damietta, Mansoura University-Egypt, 3-7 March, 2002.
- 1st International Conference on Natural Toxins, October 6 University-Egypt, 18-19 December 2004.
- International Conference of Physiology, Stem cells, Faculty of medicine, Suez Canal University, June, 2008

Research Interest:

- Electrophysiology
- Cellular physiology and Ion Channel
- Herbal Medicine

Publications and researches:-

Hefny, H.A. and Ahmed,S.H. (2000): Histopathological effects of CdSO₄ on Fetal albino rats". Egyptian Society of Histology and Cytology .

Hefny, H.A. and Ahmed,S.H. (2001): Teratogenic effect of cadmium on the foetal development of albino rats. Egyptian J. of biology , Vol.3:110-115).

Moustafa, S.A.; Nabil, Z.I and Ahmed, S.H. (2001): protective effects of Zinc against Cd toxicity in the rats" Res. Comm. Pharmacology and Toxicology. vol 5, pp205-220.

Nabil, Z.I; Moustafa, S.A. and Ahmed,S.H. (2002): Effect of Cd toxicity on cardiac and smooth muscles, Mechanism & Protection "J. of the Egyptian Garman Society of Zoology. Vol.(38A): 1-21.

Nabil, Z.I; Hussein, A.A.; Omran, M.A.; Youssef, A.M. and Ahmed,S.H. (2004): Effect of Aerial parts of *Calotropis procera* on the muscle activity (in vitro study). Accepted& presented in the 20th Anniversary Conference of The Egyptian Society of Toxocology. Attended in the Bibliotheca Alexandria, 18-19 Febraury.

Nabil, Z. I.; Hussein, A. A.; Ahmed, S. H.; Youssef, A. M. and Omran, M. A (2006): Assessment of the therapeutic effect of *Calotropis procera* extract and digoxin on myocardial pathophysiology, An experimental study. Egypt. J. Nat. Toxin. Vol. 3:51-76
